Castledine G
Acting manager who ignored a care assistant

Compiled by Jill C Halliday, BSc

physically abusing a patient. *Professional Misconduct* 925
Basic nursing principles need to be remembered. *Castledine Column* 343
Case of Barbara Salisbury and the role of the ward sister. *Professional Misconduct* 780
Deputy matron who physically and verbally abused patients in her care. *Professional Misconduct* ...469
General nurses must ensure they have mental health skills. *Castledine Column* 683
How to run an efficient and safe nurse-led service. *Castledine Column* 1115
How to survive nursing school: a practical guide. *Castledine Column* 1059
Importance of the nurse-patient relationship. *Castledine Column* 231
Incompetent nurse who failed to acknowledge her limitations. *Professional Misconduct* 1145
It is time for the nursing profession to get serious. *Castledine Column* 635
Leadership can be found within nursing. *Corres* 184
New powers to deal with bad practitioners more easily. *Castledine Column* 887
Nurse
with alcohol problem who failed in her care of patients. *Professional Misconduct* 1024
who failed to acknowledge the limitations of her practice. *Professional Misconduct Case Studies* .241
who put patients at risk by performing poor nursing practices. *Professional Misconduct* 1191
who took on responsibilities beyond her competence. *Professional Misconduct Case Studies* 297
who would not acknowledge her lack of competence. *Professional Misconduct* 607
Nurse manager who was rude to staff and lied about his qualifications. *Professional Misconduct* 1091
Nurses
must aim to become more clinically effective. *Castledine Column* 546
must be more vocal about public health. *Castledine Column* 1289
must cooperate with internal and external investigations. *Professional Misconduct* 550
must learn methods to deal with difficult doctors. *Castledine Column* 479
should be more involved in DNR decisions. *Castledine Column* 175
Nursing
leadership must keep its roots in nursing. *Castledine Column* 119
needs to sort out the role of nursing assistants. *Castledine Column* 751
perspective on the new plan for the NHS. *Castledine Column* 926
Nursing home manager
who failed to protect the interests of patients. *Professional Misconduct Case Studies* 69
who failed to provide a safe environment for clients. *Professional Misconduct* 714
Older people deserve better lives and an end to abuse. *Castledine Column* 1373
Patient assessment: a key requirement of nursing care. *Castledine Column* 1231
Patient should be at the centre of all decisions. *Castledine Column* 1003
Problems of obesity: it is time for nurses to act. *Castledine Column* 287
Psychiatric nurse who formed a sexual relationship with patient. *Professional Misconduct Case Studies* ..185
Role of hospital nursing in promoting patient recovery. *Castledine Column* 353
Role of the healthcare assistant in nursing. *Castledine Column* 1161
Senior nurse who physically and verbally abused elderly residents. *Professional Misconduct* 1329
Staff nurse
who failed to maintain adequate standards of hygiene. *Professional Misconduct Case Studies* ..11
who failed to provide adequate nursing care for patients. *Professional Misconduct* 389
who had an alcohol problem and made nursing errors. *Professional Misconduct* 1288
who put patients at risk by failing to keep accurate records. *Professional Misconduct* 954
who wore her uniform off duty to steal from hospital. *Professional Misconduct Case Studies* .129
whose lack of competence did not improve after further training. *Professional Misconduct* 850
Students need support. *Corres* 1067
Study raises concern about school children's health. *Castledine Column* 819
Will infection be reduced in the coming year? *Castledine Column* 59
Catheters
central venous: choosing the most appropriate access route. *Intravenous Therapy*. H Hamilton 862
indwelling: using bladder instillations to manage. *Clinical Evaluation*. I Pomfret et al 261
nursing management of urinary tract infections for catheterized patients. *Clinical Skills*. S Hampton 1180
procedures: antibiotic prophylaxis. *Infection Control*. L Fraczyk and H Godfrey 610
'trial without catheter' model in primary care. *Continence Care*. M Warrilow et al 1035
